WORK EXPERIENCE

Website Design And Development Intern

10 July 2024 – 14 August 2024

- Learned and applied HTML, CSS, JavaScript, React, and Jest for testing.
- Developed an e-commerce website with a component-based architecture using React and Redux for state management.
- Built a backend with Node.js and Express to handle API requests and sample data integration.
- Gained hands-on experience in creating scalable and reusable frontend components.

PROJECTS

Hotel Booking Website (MERN, PostgreSQL, Tailwind CSS, @mui/material)

- Built a hotel booking platform using the MERN stack, with MongoDB for reviews, PostgreSQL for bookings and user data, and Cloudinary for image storage.
- Implemented secure authentication with JWT and bcrypt.js, and integrated Razorpay for payments.
- Styled with Tailwind CSS and @mui/material for a modern, responsive UI.

Contest Web Application(Next.js, React, Redux Toolkit, TypeScript, Tailwind CSS, LocalStorage, Docker)

- Developed a responsive web application to aggregate programming contest data from Codeforce, Codechef, and LeetCode, enabling users to browse, filter, and bookmark contests by status (Running, Upcoming, Past) and source.
- Developed a robust system by implementing dynamic API data fetching with Promise.allSettled for fault-tolerant, concurrent requests and integrating YouTube video links to enhance contest learning experiences.
- Crafted a modern, responsive UI using Tailwind CSS with dark/light theme toggling and a persistent navbar, while leveraging Redux Toolkit and LocalStorage for seamless state management and bookmark persistence.
